Was the infrastruc-ture there or did it - I guess it developed as you made the money available for it. EAN Governor D. Let me answer that in a couple of ways. The infrastructure was not there, although the advocacy groups were, and as money became available, these services became avail-able. This is not, you know, a perfect world. It is wonderful for me to come to Washington and tell my story. We fight every day with people who want more of this and less of that, and that is just part of the political fabric of what happens when you make changes and what happens when you fight over resources. So I am not going to say that everybody is 100 percent satisfied customers. We have dis-agreements with people about what services they need, because if they could get any service they wanted, obviously we wouldnt be able to sustain the program. We have built up as a result of this the sophisticated services needed to keep people in their own homes, and one of the very good things, in my view, that has happened is that we now have sophis-ticated services 4 or 5 years into this that we didnt have before, and so we can take care of much sicker people in their own homes and still it is much cheaper than it is in an institution....
