Reviews

Excellent e-book and useful one. It can be rally intriguing throgh looking at time period. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Pasquale Klocko)

DISEASES OF THE THYROID GLAND (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Diseases of the Thyroid Gland It is a new departure for the small country hospital to present to the profession the result of studies of any particular disease. The disadvantages detached workers labor under are many, but the advantages also are worth noting. The isolation makes the investigators more free to follow their own ideas uninfluenced by the opinion of associates. The small country hospital drawing its patrons from the immediate community is better able to study the end results. It is only by frequent examination of the patient that one can obtain an accurate idea of the subsequent course in disease of the thyroid gland. The material obtained at operations has been carefully studied and compared with the clinical history. Each time information has been obtained as to the subsequent course of the disease the specimen and slide have been re-examined and compared with the sum total of information available to date. This study has brought convincing evidence that the activity of the interstitial cells is associated with a definite clinical type of thyroid intoxication. It is the desire to bring this evidence before the profession that has prompted the publication of this monograph at this time. The presentation of statistics has been designedly avoided. The study of our cases has brought evidence that statistics as now published are of little value. They present the disease in an entirely too optimistic light and the permanent value of any treatment is entirely overestimated. Statistics can be of value only when the entire subsequent life span of the individual is taken into account. This obviously is not within the range of any individual observer but falls...
