Book Publishing Company, United States, 2015. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book. Maca grown in the high plateaus of the Andes mountains in central Peru and Bolivia has been cultivated for over three thousand years. Widely praised as a superfood and credited with boosting stamina, energy, libido, and fertility, maca also functions as an adaptogen, a natural substance that stimulates the body to heal whatever is out of balance. Maca has been recommended for decades by both conventional and alternative health care practitioners worldwide. Beverly Lynn Bennett reviews maca's nutritional and healing properties and all its available forms. She thoroughly covers how to incorporate powdered maca into daily meals and provides 32 scrumptious recipes, including beverages, morning meals, snacks, sides, main dishes, and treats. Incan Maca Hot Chocolate, Garden Guaca-Maca-Mole, and Maca-Miso Dressing are just a few of her delicious offerings.
